

Mahbub Hassan Siam

Mirpur-10, Dhaka | +88 01304681741 | cnsiam787@gmail.com

Career Objective

A highly motivated and detail-oriented Industrial and Production Engineering graduate from Jashore University of Science and Technology (JUST), possessing strong expertise in Lean Manufacturing, Production Systems, Process Optimization, and Industrial Engineering principles. Equipped with practical exposure through industrial attachment programs, research initiatives, and leadership activities, with a strong passion for operational excellence, smart manufacturing systems, and data-driven industrial decision-making.

Education

- **B.Sc. in Industrial & Production Engineering** — Jashore University of Science and Technology (2020–2025) | CGPA: 2.84
- **HSC** — Cantonment Public School and College, Saidpur | GPA: 4.83
- **SSC** — Lions School and College, Saidpur | GPA: 5.00

Technical Skills

- Lean Manufacturing and Continuous Process Improvement
- Industrial Engineering Principles and Production System Optimization
- Production Planning, Scheduling, and Workflow Coordination
- Quality Assurance and Statistical Process Control
- Time and Motion Study for Operational Efficiency Enhancement
- 5S Methodology and Workplace Productivity Improvement
- Manufacturing Process Analysis and Performance Evaluation
- Garment Technology and Industrial Production Operations
- Data Analysis and Reporting using Microsoft Excel
- Research Methodology and Technical Documentation

Soft Skills

- Leadership and Cross-Functional Team Collaboration
- Professional Communication and Presentation Skills
- Analytical Thinking and Strategic Problem-Solving
- Adaptability in Dynamic Work Environments
- Time Management and Task Prioritization
- Organizational and Event Coordination Skills

Certifications

- Industrial Attachment on Garment Technology & Lean Manufacturing — BKMEA
- Industrial Attachment Program — BITAC
- Swisscontact Project Training Program

Research & Publications

- **Published Research Paper:** DVMNet: Detection of Sugarcane Leaf Disease Using Ensemble of Convolutional Neural Network Classifiers — Published in *Book — Data Science & Exploration in Artificial Intelligence* | Author: M H Siam et al.

- **Manuscript in Preparation:** Digital Twin-Enabled Explainable Fault Detection and Predictive Maintenance in Industrial Automation: A Comprehensive Systematic Review of Architectures, Methods, Datasets, and Open Challenges

Leadership & Organizational Experience

- **Executive Member — JUST Career Club (2023–2024)**
Organized workshops, seminars, and student engagement activities.
- **Project Contributor — Jashore Light Engineering (JLE) Standardization & Branding Project**
Contributed to product standardization and branding activities.
